

Questions to the breakout groups:

- Based on this Workshop, how would you rate the JCSDA activities in your area of expertise?
- What recommendations do you have for JCSDA management to strengthen its activities in your areas (if needed)?
 - Long term, short term, specific funding issues, collaboration on specific projects, other?
- What is the role of your JCSDA Working Group, and how could (or should) it evolve?
 - Information exchange; coordination across partners; input to JCSDA priorities; review of proposals, projects, etc.; responsibility for specific projects and/or code; other?
- Any feedback on the workshop itself?
 - Venue, duration, format, attendance,...
